

HELEN TAYLOR
1943 – 2009

When Helen's sister Beverley McGrath died of cancer in 2003, Helen began holding 'Big Morning Teas' at her home in Bowral where she raised thousands of dollars over the following years.

Little did she realise she would succumb herself to cancer not long after.

Amongst her family Helen always included her animals. For years she was very active in the King Charles Spaniel world. And when she moved to Bowral she added to her dogs, alpacas, a goat, pony, sheep, donkey, chooks & ducks. On every visit we all were given eggs to take home.

Helen is sadly missed by us all, 'specially those whose cherished dogs were so wonderfully cared for when left with Helen for a holiday.

We know Helen would wish every opportunity be given to researchers seeking an answer to overcoming cancer, 'specially lung cancer, which took her from us.

Joan & Don Murphy & family
Roger McGrath & all his family.
